

# Lynnes Welding Training (LWT) is an American Welding Society (AWS) Accredited Test Facility (ATF)

**Gain the reputation  
and trust of your  
welding skills attained  
from testing for Welder  
Certifications at LWT**

## Advantages of LWT ATF

LWT has met the ATF requirements for equipment and its calibration, procedures and knowledgeable personnel.

- No need to tie up your welding equipment and personnel for weld testing
- Entrust welder certifications, testing and processing to our ATF specialists
- Quality control program in place for testing welders
- All weld tests are witnessed by an AWS Certified Welding Inspector
- All welding and testing equipment is calibrated
- Test material is traceable with heat numbers
- Destructive bend testing for all weld tests

*Contact us today, for more information  
regarding AWS testing and certification*  
**701-373-0658**

## Certified Welder Program

*As an individual welder*, become an AWS Certified Welder and receive transferable credentials to take with you.

- Tests are strictly performance-based
- No prerequisite courses or certifications required
- Test to procedures used in the structural steel, petroleum pipelines, sheet metal and chemical refinery welding industries
- Tested to the highest standards of the industry verifying that you are a highly skilled welder
- Getting certified tells your employer that you're a serious professional and a valuable member of the team
- Being AWS Certified should put you at the front of the line for new hires
